

ADMINISTRATIVE REGULATION

APPROVED: February 5, 2015

REVISED: March 16, 2020

203-AR-3. IMMUNIZATION EXEMPTION CERTIFICATION FORM-MEDICAL

All students must be immunized against certain diseases in accordance with state law and regulations.

Students may be exempt from immunization requirements if the student's physician certifies that the student's physical condition contraindicates immunizations.

A student exempt from immunization for medical reasons shall be permitted to attend school except in the case of a vaccine-preventable disease outbreak in the school. All susceptible students will be excluded from school based on public health officials' determination that the school is a primary site for disease exposure, transmission, and spread into the community. Students excluded from school for this reason will not be able to return to school until (1) the danger of the outbreak has passed as determined by public health officials, (2) the student becomes ill with the disease and completely recovers, or (3) the student is immunized. For example, for measles the complete incubation period is 18 days from the onset of symptoms for the last case in the community. Outbreaks like measles may last for several months.

Parents or guardians seeking an exemption from immunization for the child for medical reasons must complete the following statement and return it to the school nurse along with certification from the child's physician.

If the certification from the physician lapses, this form will need to be completed again and accompanied by an updated certification from the child's physician.

To Whom It May Concern:

As the parent(s)/guardian(s) of \_\_\_\_\_

I/We hereby assert that my child has a physical condition that contraindicates immunization (must attach a certification from the child's physician).

Therefore, this child shall be exempt from the required immunizations.
