

ARP ESSER Health and Safety Plan Guidance & Template

Section 2001(i)(1) of the American Rescue Plan (ARP) Act requires each local education agency (LEA) that receives funding under the ARP Elementary and Secondary School Emergency Relief (ESSER) Fund to develop and make publicly available on the LEA's website a *Safe Return to In-Person Instruction and Continuity of Services Plan*, hereinafter referred to as a *Health and Safety Plan*.

Based on ARP requirements, 90 percent of ARP ESSER funds will be distributed to school districts and charter schools based on their relative share of Title I-A funding in FY 2020-2021. **Given Federally required timelines, LEAs eligible to apply for and receive this portion of the ARP ESSER funding must submit a Health and Safety Plan that meets ARP Act requirements to the Pennsylvania Department of Education (PDE) by Friday, July 30, 2021, regardless of when the LEA submits its ARP ESSER application.**

Each LEA must create a Health and Safety Plan that addresses how it will maintain the health and safety of students, educators, and other staff, and which will serve as local guidelines for all instructional and non-instructional school activities during the period of the LEA's ARP ESSER grant. The Health and Safety Plan should be tailored to the unique needs of each LEA and its schools and must take into account public comment related to the development of, and subsequent revisions to, the Health and Safety Plan.

The ARP Act and U.S. Department of Education rules require Health and Safety plans include the following components:

1. How the LEA will, to the greatest extent practicable, implement prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning;
2. How the LEA will ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services;
3. How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:

- a. Universal and correct wearing of [masks](#);
- b. Modifying facilities to allow for [physical distancing](#) (e.g., use of cohorts/podding);
- c. [Handwashing and respiratory etiquette](#);
- d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#);
- e. [Contact tracing](#) in combination with [isolation](#) and [quarantine](#), in collaboration with State and local health departments;
- f. [Diagnostic](#) and screening testing;
- g. Efforts to provide COVID-19 [vaccinations to school communities](#);
- h. Appropriate accommodations for children with disabilities with respect to health and safety policies; and
- i. Coordination with state and local health officials.

The LEA's Health and Safety Plan must be approved by its governing body and posted on the LEA's publicly available website by July 30, 2021.* The ARP Act requires LEAs to post their Health and Safety Plans online in a language that parents/caregivers can understand, or, if it is not practicable to provide written translations to an individual with limited English proficiency, be orally translated. The plan also must be provided in an alternative format accessible, upon request, by a parent who is an individual with a disability as defined by the Americans with Disabilities Act.

Each LEA will upload in the eGrants system its updated Health and Safety Plan and webpage URL where the plan is located on the LEA's publicly available website.

The ARP Act requires LEAs to review their Health and Safety Plans at least every six months during the period of the LEA's ARP ESSER grant. LEAs also must review and update their plans whenever there are significant changes to the CDC recommendations for K-12 schools. Like the development of the plan, all revisions must be informed by community input and reviewed and approved by the governing body prior to posting on the LEA's publicly available website.

LEAs may use the template to revise their current Health and Safety Plans to meet ARP requirements and ensure all stakeholders are fully informed of the LEA's plan to safely resume instructional and non-instructional school activities, including in-person learning, for the current school year. An LEA may use a different plan template or format provided it includes all the elements required by the ARP Act, as listed above.

* The July 30 deadline applies only to school districts and charter schools that received federal Title I-A funds in FY 2020-2021 and intend to apply for and receive ARP ESSER funding.

Additional Resources

LEAs are advised to review the following resources when developing their Health and Safety Plans:

Health and Safety Plan Summary: Upper Darby School District

Initial Effective Date: June 16, 2021

Date of Last Review: June 7, 2022

Date of Last Revision: June 15, 2021, July 10, 2021, July 29, 2021, August 3, 2021, August 20, 2021, September 7, 2021, October 12, 2021, January 11, 2022, March 7, 2022, June 7, 2022, August 22, 2022, February 24, 2023, September 18, 2023, March 12, 2024, September 10, 2024

1. How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?

The Upper Darby School District implemented a health and safety plan throughout the 2020-2021 school year using mitigation strategies supported by the CDC, PA Department of Health, and CHOP Policy Lab. These strategies were successful in supporting the larger public health initiative to slow the spread of COVID-19 and to protect our district community, especially those at increased risk for severe illness. Additionally, our District supported vaccination clinics for our teachers, staff and the community through partnerships with the DCIU, Delaware County Memorial Hospital and Delaware County Medical Reserve Corps. We led vaccine clinics for students and will continue to support future clinics once approved for students under 12 years of age.

Our District will continue to review the latest guidance from the CDC, PA Department of Health, and CHOP Policy Lab, if applicable. This information will assist the District when reviewing our mitigation strategies for effectiveness. The guidance will also be used to revise our health and safety plan as necessary. We intend to implement a phased approach to introduce mitigation strategies if the data and health agencies suggest. The chart below provides strategies, policies, and procedures to be used within the district.

*As of January 10, 2022, Upper Darby School District will be following the January 2022 Children's Hospital of Philadelphia (CHOP) Guidance for In-person Education for K-12 Educational Settings. Please see the link below for the full guidance.

<https://policylab.chop.edu/tools-and-memos/guidance-person-education-k-12-educational-settings>

*As of August 22, 2022 Upper Darby School District will be following the August 2022 Children's Hospital of Philadelphia (CHOP) Guidance for Updated COVID-19 School Mitigation Plans for Academic Year 2022-23, the Infectious Disease Prevention for Schools and Early Childcare Programs from the Delaware County Department of Health, and the Operational Guidance for K-12 Schools and Early Care and Education Programs to support

Safe In-Person Learning from the CDC. Please see the links below for further guidance:

<https://policylab.chop.edu/sites/default/files/pdf/publications/PolicyLab-CHOP-Guidance-for-Updated-COVID-19-School-Mitigation-Plans-2022-23.pdf>

<https://delcopa.gov/health/pages/schoolandecpoinfectiousdiseaseprevention.html>

<https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-childcare-guidance.html>

*Per the guidance from the CDC, March 1, 2024, staff and students who test positive for COVID-19 are able to return to school when, for at least 24 hours, symptoms are improving overall, and if a fever was present, it has been gone without use of a fever-reducing medication (fever free for 24 hours). Once students and staff return to school, they are encouraged to take additional prevention strategies for the next 5 days to curb disease spread, such as taking more steps for cleaner air, enhancing hygiene practices, wearing a well-fitting mask, keeping a distance from others, and/or getting tested for respiratory viruses.

<https://www.cdc.gov/media/releases/2024/p0301-respiratory-virus.html>

2. How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?

The Upper Darby School District will offer full-time in person instruction for all students in Grades K-8. The District approved a new high school schedule on June 1, 2021 that allows for flexible asynchronous instruction for most students in the morning and in-person instruction for the remainder of the day. The District has a well-established Positive Behavior Interventions and Supports (PBIS) program in place and will implement a K-12 Social and Emotional Learning (SEL) curriculum in the 2021-2022 school year. Additionally, the District supports a comprehensive student service program that provides a full continuum of services including health, social work, counseling and psychological services. The District partners with Child Guidance Resource Centers (CGRC) to provide satellite mental health clinics at Upper Darby High School and two elementary schools where families and students can receive outpatient services in one of the community schools. The food service plan will provide breakfast and lunch to students during the school day and meals for the weekend. Students who attend school virtually will have the ability to pick up bulk meals for the week. Staff members have access to a robust employee assistance program (EAP) through employee benefits and the human resources department.

In addition, the district will approve an Emergency Instructional Time Section 520.1 – 2021-22 School Year on June 15, 2021. This can be viewed on the district website via BoardDocs on June 15, 2021. The District will also approve an athletic health and safety plan for the 2021-2022 on June 15, 2021.

For the 2022-2023 School Year:

The District will approve an Emergency Instructional Time Template Section 520.1 for the 2022-2023 school year. This will be available on BoardDocs after June 7, 2022. The Superintendent of Schools has the authority to amend this Health and Safety Plan at any time based on health department guidance and as necessary.

Please scroll down to view the sequence of changes based on updated guidance since the plan's initial approval on June 15, 2021:

3. Use the table below to explain how the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC.

ARP ESSER Requirement	Strategies, Policies, and Procedures
a. Universal and correct wearing of masks;	<p>Please scroll down to view the sequence of changes based on updated guidance since the plan's initial approval on June 15, 2021:</p> <p>*As of June 28, 2021, masks will be optional in all school buildings until the start of the 2021-2022 school year. The district will support all individuals who prefer to continue to wear a mask.</p> <p>*Students and staff in summer school and ESY programming will continue to wear a mask until June 28, 2021 where masking will become optional for staff and students. Masks will be required on all public transportation including school buses.</p> <p>*Effective August 30, 2021, masks will be mandatory for all students 11 years of age and younger. The district strongly encourages all eligible unvaccinated students and staff to wear a mask while in school.</p> <p>*In the event that COVID-19 cases and incidence rates rise in the county</p>

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>consistent with thresholds determined by public health officials, the District may phase in universal masking for all individuals in school buildings and busses.</p> <p>*If the county reaches the substantial or high range as determined by the CDC and/or PA Department of Health, all students and staff will be required to wear a mask in all indoor settings. https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-guidance.html</p> <p>*As of September 7, 2021, all district schools will be following the Acting Secretary of Health's Order directing face coverings in school entities. All students, staff and visitors are required to wear a face covering while inside any district facility. Please see the full document below: Order of the Acting Secretary</p> <p>*For any student or staff member participating in the Test to Stay antigen testing program, masks will be worn at all times while indoors and during extracurriculars for the duration of the individuals' participation in the program unless otherwise specified during:</p> <ul style="list-style-type: none"> • Meals • Extracurriculars-Sports • Extracurriculars-Performing Arts/Band • Extracurriculars-Clubs • Participating in high intensity aerobic or anaerobic activities, including during a physical education class in a well-ventilated location and able to maintain a

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>physical distance of six feet from all other individuals.</p> <p>*As presented during the December 21, 2021 Education and Pupil Services Committee Meeting, the District will shift to masking optional if the data and metrics below are met:</p> <ul style="list-style-type: none"> • County Incidence Rate of COVID -19 below 50 per 100,000 for two consecutive weeks <p>And/or</p> <ul style="list-style-type: none"> • County Percent Positivity of COVID-19 tests below 5% for two consecutive weeks <p>*As presented during the February 22, 2022 Education and Pupil Services Committee Meeting, the District will shift to masking recommended starting on March 7, 2022.</p> <p>Per updated CDC guidance on February 25, 2022, masking is no longer required on all school transportation (public transportation).</p> <p>Staff and students who are COVID positive and return after the five-day isolation period will be required to wear a mask for five additional days as recommended in the Children’s Hospital of Philadelphia school guidance below:</p> <p>https://policylab.chop.edu/tools-and-memos/guidance-person-education-k-12-educational-settings</p> <p>Per updated CDC guidance from August 2022, we will continue with a five-day isolation period for those staff and students who test positive for COVID-19. These</p>

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>individuals will be required to wear a mask for five additional days as recommended by the CDC guidance below:</p> <p>https://www.cdc.gov/coronavirus/2019-ncov/your-health/isolation.html</p> <p>Per the guidance from the CDC, updated May 11, 2023, we will continue with a five-day isolation period for those staff and students who test positive for COVID-19. Return to school or work will only be permitted with improving symptoms and fever free for 24 hours. These individuals will be required to wear a mask for five additional days as recommended by the CDC guidance below. Students will be provided time to make up their school work when they return to school.</p> <p>https://www.cdc.gov/coronavirus/2019-ncov/your-health/isolation.html</p> <p>Per the guidance from the CDC, March 1, 2024, staff and students who test positive for COVID-19 are able to return to school when, for at least 24 hours, symptoms are improving overall, and if a fever was present, it has been gone without use of a fever-reducing medication (fever free for 24 hours). Once students and staff return to school, they are encouraged to take additional prevention strategies for the next 5 days to curb disease spread, such as taking more steps for cleaner air, enhancing hygiene practices, wearing a well-fitting mask, keeping a distance from others, and/or getting tested for respiratory viruses.</p>

<p>b. Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding);</p>	<ul style="list-style-type: none"> ● Pennsylvania lifted its Order for physical distancing and occupancy limits on May 31, 2021. With the lifting of the Order, all school buildings and offices will not require specific social distancing requirements. ● School buildings and offices, including cafeteria spaces will allow for full occupancy with no alterations or restrictions and maintain 3 ft of distancing when possible. ● The district will consider and phase in any additional recommendations from the CDC or relevant health departments for additional mitigation strategies or modifications to instructional models if these recommendations become available. ● As of January 10, 2022, the District will be following the January 2022 Guidance for In-person Education in K-12 Educational Settings from the Children’s Hospital of Philadelphia (CHOP). ● There are no specific limitations on spacing and/or social distancing at this time (March 7, 2022 update). <p>https://policylab.chop.edu/tools-and-memos/guidance-person-education-k-12-educational-settings</p> <ul style="list-style-type: none"> ● As of August 22, 2022, the district will continue to follow Guidance for Updated COVID-19 School Mitigation Plans for Academic Year 2022-2023

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>from the Children’s Hospital of Philadelphia (CHOP).</p> <ul style="list-style-type: none"> There continues to be no specific limitations on spacing and/or social distancing (August 2022) <p>https://policylab.chop.edu/sites/default/files/pdf/publications/PolicyLab-CHOP-Guidance-for-Updated-COVID-19-School-Mitigation-Plans-2022-23.pdf</p> <p>https://delcopa.gov/health/pages/schoolandcpiinfectiousdiseaseprevention.html</p> <p>https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-childcare-guidance.html</p>
<p>c. Handwashing and respiratory etiquette;</p>	<ul style="list-style-type: none"> Best practice encourages hand washing prior to meals and snacks, after meals and snack, transition back to class from being outside, after using the bathroom, and after blowing nose, coughing, or sneezing. The District will encourage our students, staff, and contractors to implement these best practices and make soap and/or hand sanitizer readily available in classrooms and spaces where student and staff will eat meals and snacks. The District will have available hand sanitizer in strategic locations of high traffic areas. The District will post signs in buildings reminding students, staff, and visitors of proper respiratory etiquette such as “cover your cough” etc.

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<ul style="list-style-type: none"> As of January 10, 2022, the District will be following the January 2022 Guidance for In-person Education in K-12 Educational Settings from the Children’s Hospital of Philadelphia (CHOP). https://policylab.chop.edu/tools-and-memos/guidance-person-education-k-12-educational-settings As of August 22, 2022, the District will be following the August 2022 Guidance for Updated COVID-19 School Mitigation Plans for Academic Year 2022-23. https://policylab.chop.edu/sites/default/files/pdf/publications/PolicyLab-CHOP-Guidance-for-Updated-COVID-19-School-Mitigation-Plans-2022-23.pdf https://delcopa.gov/health/pages/schoolandecpoinfectiousdiseaseprevention.html https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-childcare-guidance.html Per the guidance from the CDC, March 1, 2024, staff and students who test positive for COVID-19 are able to return to school when, for at least 24 hours, symptoms are improving overall, and if a fever was present, it has been gone without use of a fever-reducing medication (fever free for 24 hours). Once students and staff return to school, they are encouraged to take additional prevention strategies for the next 5
