

How To:
Connect Your **ANDROID** phone to UDSD WiFi

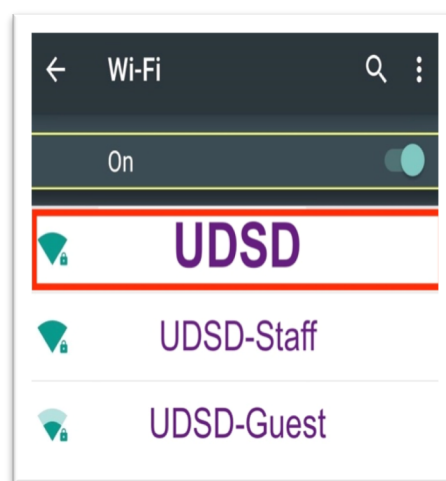

1. Open your “Settings” Application

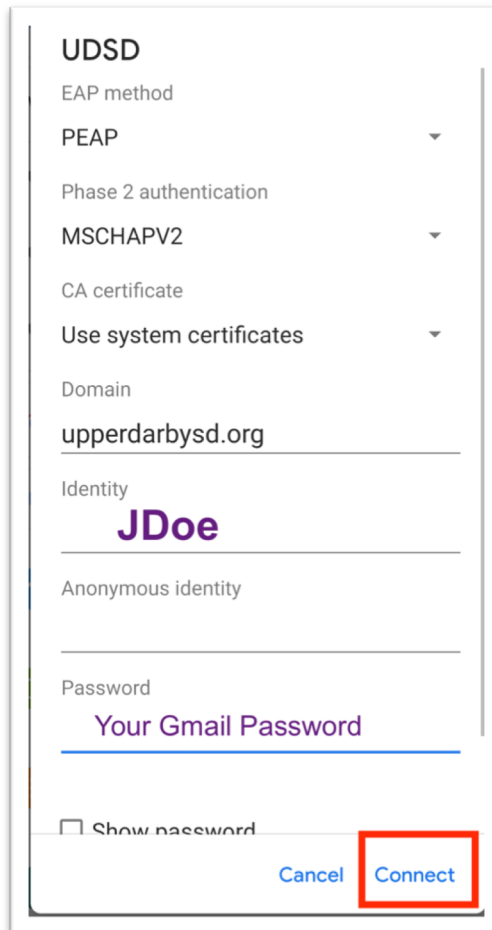

2. Select your WiFi Settings

3. Select the “UDSD” WiFi network

4. Once you select the UDSD network, please match the menu options to the following information, also shown below:
- For EAP method, select “PEAP”
 - For Phase 2 authentication, select “MSCHAPV2”
 - For CA certificate, select “Use system certificates”
 - Domain should say “upperdarbysd.org”
 - For Identity, please enter your computer username
 - Note: this is the first part of your Upper Darby email minus the “@upperdarbysd.org”
 - For Anonymous identity, leave the field blank
 - For Password, please enter your Gmail password

The image shows a dialog box titled "UDSD" with several configuration fields. The "EAP method" is set to "PEAP", "Phase 2 authentication" is set to "MSCHAPV2", and "CA certificate" is set to "Use system certificates". The "Domain" field contains "upperdarbysd.org". The "Identity" field contains "JDoe". The "Anonymous identity" field is empty. The "Password" field contains "Your Gmail Password". There is a checkbox for "Show password" which is unchecked. At the bottom, there are two buttons: "Cancel" and "Connect". The "Connect" button is highlighted with a red rectangle.

UDSD
